CH8134

The Squid™ XM is a versatile everyday carry just like its smaller predecessor, but with a bit more reach from a longer blade—it's not quite large, just "extra medium." The latest addition to the Squid™ XM family features a manually deployed blade and fidget-friendly button lock. The stonewash D2 blade stands up to hard use, while the green burlap micarta handle offers positive grip in all conditions. The blade deploys smoothly thanks to an easy-to-access thumb stud paired with IKBS™ ball bearings in the pivot.

CH8062

The Electro features a blue TiN coated short deep pocket clip for concealment and positioned tip-up so it lets you rapidly open the knife straight out of pocket. No need to worry about a "hotspot" on this knife where the clip digs into your hand when holding the tool. Featuring a 440C stainless steel blue TiN coated blade and reversible thumb stud for left-handed or right-handed users.

CH8063

The Hornet offers a sleek design without losing the strength to perform. The 3.25" mirror polish blade highlights the sharp edge of the 440 stainless steel. The anodized aluminum handle with a brushed finish features a lightweight design that fits comfortably in your pocket and the pocket clip makes it easily accessible. The added spring for a swift assist opening is one of the many features you'll want to show off to your friends.

CH8017

The blue anodized aluminum handle has a blue satin finish and curved edges on the belly of the knife for comfortable grip. A ball bearing pivot system is used instead of a spring, so that the blade glides open. Equipped with turbo lock mechanism for added reinforcement to keep the blade securely open when in-use. The push button is simply depressed allowing the blade to be disengaged.

CH9905

This elemental survival/rescue knife comes equipped with a two stage blade that is both straight and serrated for all cutting needs. Featuring a seat belt cutter and window hammer, a removable miniature flashlight with magnet and a fire starting flint for manual fire starting. Includes a pocket clip and nylon pouch. Overall size is 5", with a 3 5/8" blade size.

CH9986

This Pakkawood and stainless steel knife features a swift assist opening for quick action and a 3.25" 440 stainless blade.
